

DustMagnet™

5210i

5
series

Designed for a life with less cleaning

DustMagnet™ technology

The patent-pending DustMagnet™ technology is uniquely designed to powerfully attract dust like a magnet before it settles on floors and surfaces.

HEPASilent™ technology

Blueair's unique filtration technology that delivers more clean air with less noise and less energy consumption.

Particle CADR 250 m³/h

Cleans fine particles from germs to PM2.5

Whisper-silent

The 5210i delivers its powerful performance from 29db (45db at peak performance)¹

Low Energy Consumption

The 5210i only uses 22W at peak performance (5W at lowest fan speed)²

Furniture design

Designed to blend into your home so you can place your air purifier anywhere it will be most effective.

With smart connected features like Welcome home and Clean air ETA, you can have a complete control of the air quality condition in your home wherever you are.

Cleans up to **22 m²** room (based on 5 Air Changes per
